The pursuit of excellence and innovation in Performing Arts through community engagement

October 2024

To our wonderful Bright Star audience

In 2019 we attended a performance of Bright Star produced by an independent theatre company 'Pursued by Bear'. It was a stunning production which we were keen to bring to our audiences.

We admired their creative and imaginative choices. You can see in our program that we have stated that our production is inspired by this one.

We must go further than this and credit the following designers and creative team who have largely inspired our production.

Director: Mark Taylor

Choreographer: Freya List

Set Designer: Sarah Tulloch

The work of Pursued by Bear is always fresh, innovative and entertaining. We urge you to keep any eye out for their productions in the future.

Yours sincerely
